London in Darkness.

Such Will Be the Case on Monday Night

IF THE STRIKE IS NOT ENDED.

Rioting and Bloodshed Sure to Follow if the Number of Strikers are Increased.

All the London Toilers Called on to Stop Work—Other Foreign Dispatches. LONDON, Aug. 31.—Meetings were held last night by every trades union organization in London and the different workmen's societies for the purpose of taking action upon the circular issued by the dock laborers' committee in which they urge all London workingmen to go on strike next Monday unless the dock company's yield to the demands of their striking employees. The importance of the decisions to be rendered can scarcely be overestimated.

If a general strike is inaugurated Monday, as is contemplated by the circular, it is difficult to see how riot and bloodshed can be averted. The leaders in many of the workmen's organizations are pronounced Socialists, and these have never made a secret of their convictions that the ultimate triumph of their cause can only come through violence and revolution. The present seems to be their opportunity, and if they can persuade the million toilers of the metropolis to lay down their tools on Monday it is certain that in less than a week thereafter the streets of London will behold scenes of turbulence such as no living Englishman has ever seen.

What adds vastly to the difficulties of the situation is the fact that the rank and file of London's police force are heartily in sympathy with the present strike, and would without a doubt sympathize with the participants of a general strike should it be decided upon. They subscribed liberally to the strikers' relief fund, and when off duty their criticisms on the conduct of strike leaders leave no one to doubt on which side of the conflict they would prefer to fight. In the event of the slightest trouble, therefore, the authorities would be compelled to rely upon the troops, whose rifles and bayonets would do bloody work in a crowded London street.

The gas companies early in the week were nervous about what their strike would do, but this has come to be a matter of very little moment, as all the coal they have on hand can only last until Monday, and after that there is no way of getting a further supply. London is certain to be left in darkness Monday night if the strike continues and after that how much longer no man can tell.

Cardinal Manning has espoused the cause of the striking dock laborers, and is pleading with the directors of the dock companies to put an end to the trouble by conceding the demands of the men.

An American Protest.

LUCEKING, Aug. 31.—Mr. Washburne the American minister to Switzerland, has formally protested to the Swiss government against the wrongful arrest of four American tourists at Berne recently. They were charged with being pickpockets, and after being imprisoned for two days, no evidence to support the charge being found, they were released without so much as an apology. Heavy damages are claimed by the injured parties.

Americans to be Expelled from China.

LONDON, Aug. 31.—A Shanghai dispatch to the Standard says: Intense excitement prevails among the Americans residing here, in consequence of news received from Pekin that prominent Chinese officials have petitioned the government for the expulsion of all Americans from the country. It is reported that Prince Chun, the father of the emperor, is advocating the expulsion of Americans.

Catholie Conference.

BERLIN, Aug. 31.—The Catholic conference at Bochum has closed its sessions. It was decided to hold the next conference at Munich at 1890. The proposal which came from America for an international congress was adopted.

EDITORS' OFFICERS.

Proceedings of the National Editorial Association in Session in Detroit.

DETROIT, Mich., Aug. 31.—The National Editorial Association elected officers at yesterday's session, as follows: Charles A. Lee, of Rhode Island, president; J. B. Staley, of Greenville, Ala., first vice president; E. B. Fletcher, of Morris, Ill., second vice president; E. W. Stephens, of Columbia, Mo., treasurer; John G. Doren, of Dayton, O., corresponding secretary; William Kennedy, of Pittsville, Pa., recording secretary; R. H. Teney, of Boulder, Col., assistant secretary.

The next convention will be held at Boston in June, 1890. In the afternoon the editors were taken to Star Island in Lake St. Clair where a complimentary banquet was given them by the citizens of Detroit in the Star Island house. Today they will start on an excursion to Niagara Falls, arriving back in Detroit Monday morning when they will return to their homes.

Stonewall Jackson's Only Child Dead.

CHARLOTTE, N. C., Aug. 30.—Mrs. W. E. Christian, nee Julia Jackson, only child of Stonewall Jackson, died here yesterday after two weeks illness of typhoid fever. Her husband is the editor of a weekly paper here called The Charlotte Democrat. Her mother resided with her and her husband. The remains will be taken to Lexington, Va., for interment.

IMPRISONED IN A MINE.

Forty-Five People Narrowly Escape Death from Drowning.

CUMBERLAND, Md., Aug. 31. Forty-five men were at work in the Allegheny mine, thirteen miles from Cumberland, belonging to the Consolidated Coal company, Friday morning, when the wall between it and the adjoining worked-out Boston or Aetna mine gave way from pressure of water in the old mine. It flowed steadily in a strong stream over four feet in depth, and there were grave fears for the men inside.

Hours passed before any relief could be obtained by the men inside, and outside the deep concern of wives, children and loving friends were depicted on every countenance. Finally the water had subsided to a depth that would allow entrance to the mine and H. P. Meem, the engineer of the company, started in search of the imprisoned men, none of the outsiders being willing to venture. After wading through the water against a strong current up to his waist pits and over an irregular bed of 500 feet, he came to a group of forty-three men who told him of a man and boy living in a distant room.

No one would go to their relief. He started on and finding the two placed the boy on his shoulders and bidding the man to follow turned back and joined the group. The men seemed terrified and without judgment they declined to go forward, until after much persuasion, and then only after Meem had taken the lead with the child on his shoulders. Fortunately all escaped. The water was an accumulation of years and is still flowing at considerable depth, though with less force.

The loss to the coal company is said to be heavy, the full extent will not be ascertained until the water has entirely subsided.

Meem's courage in entering the mine, his young spirit and the hope and encouragement he gave the entombed miners when he met them may be justly considered their salvation. He is certainly the beneficiary to many a loving heart in homes that would be grieved stricken, where widows' tears and orphans' cries would prevail in place of joyful and thankful hearts.

HUNTING FOR DOUBLOONS.

JACKSONVILLE Interested in Recovering the TREASURES of Father M. J. O. A.

JACKSONVILLE, Fla., Aug. 31. Investigation into the history of the old Coquina house in the cellar of which over \$500 in Spanish doubloons were found on Wednesday last, shows that the structure must have been at least 120 years old. The coins were undoubtedly hidden beneath the chimney foundations by Father Miguel Crosby, who had charge of the Catholic mission at St. Augustine from 1735 to 1815, having been sent thither by the king of Spain.

The Times-Union correspondent examined the record book in the ancient cathedral, and there learned that the old house on the corner of Bridge and Marine streets was presented to Father Miguel, and occupied by him up to the time of his death, about seventy years ago. In 1824 a brick mason named Bogas found \$300 in Spanish coins in a portion of the same chimney. Since that time tradition has associated the house with buried treasure, but none has ever come to light until the earthen pot was found full of gold on Wednesday last.

The premises are still surrounded by a cordon of guards, and all the earth and debris previously carted away outside the city limits is being searched. Nothing has been found. It is firmly believed that much more gold will be eventually dug up, for Miguel received princely advances from the king and Mother church in Spain, and was known to have been miserly in his habits. The excitement has subsided somewhat, although the matter is still the talk of the town. The oldest coin of the lot was a doubloon bearing the date of 1735.

BURNED BY MOLTEN METAL.

A Fatal Accident Occurs at the Carnegie Homestead Steel Works.

PIRATESBURG, Aug. 31.—A lad containing thirty tons of molten steel, with two twelve ton ingots taken out, boiled over late yesterday afternoon, at Carnegie's Homestead Steel works, burning one man to death, one so bad that he died, another to death, one so bad that he died yesterday last night, and fatally burning two others, besides four others being seriously burned.

INJURED IN AN ELEVATOR.

The Elevator Bay and Five Nurses More or Less Injured.

PHILADELPHIA, Aug. 31.—Two strands of the cable attached to the elevator at the Philadelphia Lying-in Charity hospital, Eleventh and Cherry streets, broke yesterday, and the car fell from the third floor to the basement. The elevator boy and five nurses who were in the car were all more or less injured, as follows: Head nurse, Miss Alice Millspaugh, slight contusion of ankle; Nurse Buttle, fracture of ankle joint; Nurse Cludy, spinal concussion and shock; Nurse Wilkinson, compound fracture of ankle joint; Nurse McDonald, fracture of ankle joint; Frank Atkinson, elevator boy, knee sprained.

The dead are as follows: Andrew Keppler, leaves a wife and four children; Nicholas Bowers, 24 years of age, single; John Lewis, burned all over, but will recover; Stephen Christ, badly burned, but will recover, has a wife and two children in Hungary; Michael Dzurk, 26 years of age, badly burned, but will recover; John Dudas, terribly burned, but will recover; has a wife and children in Hungary.

The seriously burned are: Isaac Sone, half-burned, burned all over, but will recover; Stephen Christ, badly burned, but will recover, has a wife and two children in Hungary; Michael Dzurk, 26 years of age, badly burned, but will recover; John Dudas, terribly burned, but will recover; has a wife and children in Hungary.

One of the most heartrending features of the accident was the recovery of the body of Andrew Keppler. He had fallen into a quantity of the molten metal and a stream of water was kept playing on the mass until it became cold. Then the skeleton of the poor man was taken from the iron bed, and when removed there was a distinct outline of his body in the metal.

SATILLA, Miss., Aug. 31.—James M. Newbaker was assassinated Wednesday night, about 9 o'clock, being riddled with buckshot while entering his own house. Newbaker was a prominent politician and a candidate for the state legislature before the last county nominating convention. About a year ago an attempt was made to assassinate him.

He will undergo no more.

POTTSVILLE, Pa., Aug. 31.—Thomas Nankeville, the burglar who was shot by Rev. J. K. Cost, chancellor of the Florida university. A \$25,000 building is to be built for it and the college converted into a full-fledged university and industrial institute.

Last Day's Session of the National Encampment.

THE PENSION QUESTION AGAIN.

It is Fully Discussed and the Encampment Finally Endorses Both the Disability and Per Diem Bills—Meeting of the New Council.

MILWAUKEE, Wis., Aug. 31.—The National encampment adjourned sine die at 12:30. The pension question was again taken up at the opening of the sessions, and debated at length. Finally, the following resolution was adopted: "That the action of the Twenty-second National encampment upon the matter of pension is hereby reaffirmed, and

In one district in Mercer County, W. Va., one hundred and forty fraudulent Republican votes have been proven before the committee investigating the election last fall. General Goff, the Republican nominee, is no longer claiming to be the Governor-elect.

The Commercial Gazette has a good deal to say about the colored editors who were run out of Selma, Ala., recently. These alleged editors would be run out of any community where they published such incendiary utterances as they did at Selma and Mr. Hailead knows it. But he doesn't talk that way.

The great fight in the Ohio campaign this year is against Forakerism, and General Beatty, a stalwart Republican, tells his friends that Forakerism means "pretense, sham, fustian, trickery, fraud, humbug, clap-trap and falsehood." This ought to be enough to down any man, and we look for good news from the Buckeye State.

CHAUNCEY M. DEPEW is in Europe, and in an interview at Paris he is reported as declaring that "the world's exposition in the United States in 1892 is an absolute necessity if we expect to hold our own and find outlets for the growing surplus of our manufacturers." Mr. Depew sang a different song in his speeches in the campaign last fall. Like other Republicans orators he delighted in talking of a "home market." But a change seems to be coming over their dreams, and many of them are now talking as the Democrats did a year ago. In other words they are adopting Democratic views.

COMMISSIONER TANNER's Chautauqua speech will be long remembered for one astonishing proposition. He says:

Every man who is paying taxes ought to be in favor of pensions. The money goes in every city, village and hamlet, and it is circulated like the blood in the veins of the body.

On this theory money ought to be collected from everybody, in order that somebody may have a chance of spending it for the advantage of his neighbor.

As a political economist Tanner is a terror. Why not leave the money in the pockets of the people so that they may enjoy the whole of it without the very heavy deductions to officials and other intermediaries that must come out of it?—New York Star.

Stock, Field and Farm.

It seems that oranges are following the lead of watermelons. The Florida orange crop is reported as considerably short on account of drouth, and is not expected to reach over 2,000,000 boxes.

Soot has considerable value as a fertilizer. As much as fifty tons of it are taken from the chimneys of London in a year, estimated to be worth \$200,000, and is used as a fertilizer, half a ton to an acre.

The peach crop of Georgia has made fortunes for many of the growers of that State this year. As much as \$1,600 has been realized upon carloads sent North. Preparations are making to plant immense areas with peach trees.

The number of sheep in the United States has decreased 8,000,000 head within the last eight years. It will take a great while to catch up. Meantime, demand will increase with our increasing population.—Farmers' Home Journal.

Tobacco-cutting has begun and is progressing actively. Dry weather has hastened the ripening of the crop, which has been cut short for the same reason. Some very fine fields are seen, but the crop is uneven and will be light.—Ripley Bee.

The Lexington Races.

Mr. James C. Owens' fine bay gelding Limestone won second money in the 2:40 trot Thursday, finishing third heat second, in about 2:23. Colonel Pepper's fine stallion Norval won the race, lowering his record to 2:17 1/2.

Bonnie McGregor trotted a heat Thursday to beat his record of 2:16. The mile was finished in 2:13 1/2, giving him the fastest record for living stallions. Mr. James W. Fitzgerald's promising stallion McAlister won the association stakes for four-year-olds at the Lexington fair yesterday, taking the third, fourth and fifth heats in a closely contested race. Best time 2:25 1/2, lowering his record to that notch.

Base Ball Meeting.

A meeting will be held in the council chamber next Monday evening at 7 o'clock for the formation of one or more clubs. The object is to select a team to join the league now being established in some of the up-river cities. An effort will also be made in this connection to organize a stock company. All interested in the sport are invited to attend the meeting Monday evening.

To-morrow promises to be a big day for the members of Scott Chapel, A. M. E. Church. They will hold a gospel meeting in Dietrich's Grove in the East End and large crowds from up and down the river and along the K. C. are expected. Excursion trains will be run from Cincinnati, Huntington and Lexington. Eleven preachers will likely be present to take part in the services. The Chapel has a debt of about \$225, and if enough money is secured to pay this off, the crowd will probably repair to the building where dedicatory services will be held.

The pastor, Rev. J. F. Moreland is undecided about this part of the programme, however, and the dedication may not take place till some future day. He and his congregation have an excellent church building, nicely furnished, and are striving to pay off all indebtedness hanging over it.

A quiet wedding will take place in the M. E. Church, South, at Sardis next Tuesday morning at 7 o'clock. The parties who will make their vows at the hymeneal altar are Miss Naomi Robb, daughter of Mr. J. T. Robb, of that vicinity, and Mr. James C. Kirk, of Cattlettsburg. The couple are deaf mutes, and will be married by Professor Schoolfield, of the Danville Deaf and Dumb Institute, who will use the sign language in performing the ceremony. They were pupils at the Institute a few years ago.

The congregation of Scott Chapel, M. E. Church, will be in Dietrich's Grove tomorrow in a gospel meeting. Eleven preachers will be present. A good time for all. Admission 10 cents. J. F. MORELAND, pastor.

An inventory and appraisement of the personal estate of the late Susan M. Curtis of Washington has been filed in County Clerk's office. The appraisement amounts to \$9,289 82.

MR. SIM ROSENAU is in the East buying a fresh stock of goods for the "Bee Hive." The BULLETIN had it Mr. Charles Rosenau yesterday, but that was a mistake.

OUR NEIGHBORS.

GERMANTOWN. Indications point this way, that our fair this year will be largely attended and will surpass all past exhibition in size, attractions and crowds.

F. A. Browning, W. C. Johnson, L. H. Manning, Hon. J. A. Walton, Dr. J. C. Browning and Dr. Hal Dinnitt were among the many who attended the funeral obsequies of Dr. Garrett Holton, Tuesday.

The ever popular David Hechinger was here Thursday evening to take the measure of our handsome band boys for their uniforms. Mr. Hechinger says he is in difficulties, with those who know Mr. H. is "nudged."

A petition is being passed around for signatures for or against street lamps. We hope and do not think any thoughtful person will sign "against," especially as the tax is now \$1 and can not be increased. It will make your taxes no higher, so why not sign "for?"

The many friends here of Dr. Holton and his estimable wife extend their hearty sympathy to them in the loss of their only child (which makes it a loss more keenly felt).

Dr. Garrett. He was a young man who was very popular here and numbered his friends by the score.

IT IS EASILY EXPLAINED!

Our friends often put the question to us (knowing the immense business we do) how we manage to keep constantly on hand the newest and handsomest designs in Clothing, &c, when they cannot be found elsewhere. It is simply this: when we make a season's purchase we make it count, thereby getting choice in every article put in our house, well knowing the buyer who is caught napping and has to go to market late gets the refuse, which does not suit our trade. And to day, at the beginning of the season, instead of having a broken stock, our goods are not all in yet, and we can truthfully tell you the old Red Corner has

THE GRANDEST LINE OF CLOTHING

ever opened in the State. This is not newspaper taffy, but an actual fact. You know the business we have been doing; come and see what we have in stock. Our MERCHANT TAILORING DEPARTMENT is at the head. We have spared neither time nor money to put it there. Our fine Tailor-Made Suits cannot be surpassed. Our Hats and Caps, which we have just opened up, is the largest line and latest styles ever opened up in this city. Our Trunks and Valises—in fact all of our goods will have to be seen to be appreciated. Respectfully,

JOHN T. MARTIN. RED + CORNER + CLOTHING + HOUSE!

CAPTAIN G. W. TUDOR, on behalf of Hauke's Reed and Brass Band, desires to return thanks through the columns of the BULLETIN to the officers of the Young Men's Fair Company of Ripley for the very kind and courteous treatment received during the meeting that closed yesterday. The band boys, in response to a pressing invitation, favored the citizens of Ripley this week with an open air concert Thursday night.

ONE of the enjoyable events of the week was the party given by a number of Maysville's young people Thursday at the beautiful grove of Mr. Williams, adjoining the fair grounds. An enjoyable skiff ride brought the crowd to the grove which was soon laid off into croquet grounds, while swings and hammocks were swung. These with other sources of amusement went far to make the afternoon a delightful one, while the bountiful spread served by the young ladies was enjoyed by all. The return by moonlight was one of the most pleasant features of the occasion. The party was given in honor of Misses Hannibal and Burns, the former of Lexington, the latter of Cincinnati.

THE latest from the bank failure at West Union is that the creditors will be paid in full. Ten thousand in railroad bonds, heretofore overlooked, was found Thursday—also a twenty dollar bill which had been mislaid for twenty years. The Defender says: "The syndicate by one deal cleared \$40,000. This is what carried them off their feet. The vision of prospective millions made them venture further and the result was they lost what remained of their earnings as well as the bank's surplus. At another time they won \$12,000, but the bucket shops gobbed it and they were none the better off for their luck. When men get to "bucking the tiger" they are forced to do many things they would not do under other circumstances."

Here and There.

Miss Katie O'Mara has returned from a visit at Mill Creek.

Mr. George L. Cox and family are in East on a pleasure trip.

Railway News.

C. P. Huntington, who is in Europe, has bought the Oregonian Railway, paying therefor about \$900,000.

The Indianapolis Journal says: "There is hardly a road in the country that does not feel the need of a larger freight equipment."

The passenger coaches of the Pennsylvania lines are thoroughly cleansed and disinfected at least once a week, and all rubbish, so far as possible, burned.

W. J. McKee, Acting Superintendent of the Cincinnati Division of the Chesapeake and Ohio Road, has issued a circular announcing the appointment of W. J. Harahan as Engineer Maintenance of Way of the Cincinnati Division, vice H. Pierce, transferred.

But for the delay caused by a long tunnel, the Kentucky Union Railway would be now in operation as far as Jackson in Breathitt County—right in the thick of the splendid cannel coal beds of that locality. The Kentucky Midland is pushing on, and the road from Bristol, Tenn., to connect with and form a continuous line with the Chattooga road along the Big Sandy through the Cumberland mountains, is getting along as fast as possible.—Exchange.

The late William E. Tabb, of Dover, was married five times. His first marriage was to Miss Cynthia E. Patton, on November 6, 1840; she lived but a few months. His second wife was Miss Sarah B. Evans, a sister of Mr. S. T. Evans, of Dover. They were married on December 14, 1841. After her death he married his third wife, Miss Amanda M. Elrod, on May 6, 1846. His fourth wife was Miss Mary J. Metcalfe. They were married August 28, 1860. His fifth and last wife was Miss Catharine Smith, who survives him. This marriage took place on April 26, 1887. He was the father of twelve children, five of whom are now living. They are Charles E. Tabb and M. C. Tabb, of Cincinnati; Mrs. J. J. Peed, of Millersburg, and I. F. Tabb and Mrs. Hattie Bassett, of Mt. Sterling. He left a large number of relatives and two sisters, Mrs. W. W. Baldwin, of Maysville, and Mrs. Mary E. Black, of Bellevue, Ky.

Monetary Situation.

It Has Not Changed During the Past Week.

DUN'S WEEKLY TRADE REVIEW.

Sharp Advances in Stocks and Wheat Owing to the Fact that Twenty Millions Were Paid Out for Government Bonds. Failures of the Past Seven Days.

New York, Aug. 31.—R. G. Dun & Company's weekly review of trade says: Last week's suggestions in regard to the monetary situation have been entirely sustained by the events of the past week. Those who held large amounts of government bonds were induced to sell freely at prices formerly paid by the treasury, which has thus been enabled to pay out about \$20,000,000 for bonds. But the disbursements have scarcely changed at all the market for commercial paper here, at Boston or Philadelphia, though speculation has been rendered more active, and sharp advances in stocks and wheat have resulted.

The secretary's belief that bonds to a large amount could be obtained at the prices offered has been justified, and he has done what he could under the law to prevent monetary pressure, but the money disbursed seems likely to relieve speculation rather than commercial needs, at least until other operations besides the one in government bonds have been liquidated. Stocks have advanced just \$2.50 per share in a week, and 120,000 shares have been sold already at the rising prices.

As yet the money for bonds has not actually gone out of the treasury, and its cash holdings are a little larger than a week ago, but it deposits in banks half a million less. Business in all parts of the country continues to improve with the stimulus of large crops. Chicago reports immense increase in receipts of grain and provisions, with considerable gain in sales of dry goods and clothing.

Milwaukee's finds trade improving; at Detroit and St. Paul previous improvement is maintained; at Omaha business is very good, and though trade at Kansas City is rather quiet, the demand for money is enlarging. At Cleveland and Pittsburgh the iron business is expanding, and at Philadelphia improvement is noted in wool, groceries, iron and steel, and their products, and in coal, with good trade in drugs and chemicals and tobacco. At Boston sales of wool are larger, reaching 2,100,000 pounds for the week, and the goods trade is large, with prices well maintained, a heavy demand for export is observed in leather, both soles and splits, and a good home demand, while boot and shoe factories are well employed at last year's prices and large building operations make the lumber trade more active.

The situation in the iron industry is surprisingly encouraging, for a weekly production hardly ever surpassed appears to be met by wonderful demand, although deliveries of rails continue below last year's. The Tennessee Coal and Iron company gives notice of an advance of twenty-five cents in its price for pig iron and the rise in the price of coke at Pittsburgh ensues some advance in pig iron, while bar, plate, and structural iron are in strong demand, and the works better employed than they have been before for several years. Increase of wages is reported at several establishments, and the building of several more furnaces, two by the Carnegie works at Bradford.

Wool is not yet freely taken by manufacturers at current prices, but the demand is better on the outside while holders seem a little more ready on the other to make the concessions required by the present state of the goods market. The high prices and inferior quality of cotton embarrass manufacturers, but a large new supply is now at hand. The interior money markets are so well supplied that the lack of supply for commercial purposes are the chief eastern cities is the more noticeable.

At Milwaukee there is more activity and a strong demand, and at Chicago the demand is good, but in general the supply is ample at the usual rates. Collections are improving at Omaha, and rather better at Philadelphia, but at most ports the absence of complaint is not worthy. The movement of money through the treasury to the interior continues, and would doubtless have caused some pressure here but for the liberal sales of bonds. While the Bank of England has raised its rate of discount, thus evincing a disposition to prevent any outflow of gold to this country, the sales of commercial bills against cotton and other crops have been large, and the exports from New York for four weeks exceed last year's by nearly 22 per cent., the increase on imports being a little larger.

It is an encouraging fact, also that the important failures of recent weeks have not produced the large crop of minor disasters by many apprehended. It is reported that creditors will grant extension to the Wauregan mills, and a statement from Philadelphia is that Leads Brothers will pay fifty cents on the dollar, but neither in number nor in magnitude have the failures of this week been unusual. The volume of trade is still much above that of last year, and clearings show a gain of 8 per cent. outside of New York. In the speculative markets the general tendency has been toward lower prices, though what advanced on extravagant reports of shortness in European crops. But the average of prices for all commercial is about 1 per cent. lower than a week ago, and even in wheat the latter sales indicate a tendency as in other grain and provisions.

The business failures occurring throughout the country during the past seven days number, for the United States 189 and for Canada 22, or a total of 211, as compared with a total of 206 last week, and 213 the week previous to last. For the corresponding week of last year the figures were 223, made up of 202 failures in the United States and 84 in the Dominion of Canada.

JOHN L. FIGHTING DRUNK.

All Boston Terrorized by the Infuriated Bruiser.

BOSTON, Aug. 31.—John L. Sullivan came to town Thursday, breathing vengeance and slaughter. He was fighting drunk. Ever since he found that his schemes for making money in Boston were blocked, he has been drinking more and more. During the first two days of his visit to the shore he was so drunk that he hardly knew one face from another. But he kept on good terms with all.

Thursday he started for this city in a very ugly frame of mind. His companion kept him pretty quiet until the Tremont house was reached. Then Sully insisted upon getting a drink and ordered the driver to stop. Annie ex-postulated and endeavored to keep him in the carriage, but she might as well have tried to stay a locomotive. John was bound to go and he went. He entered the bar room with an unsteady gait and called for a bottle of wine. His beaver hat was tilted on his head in an artistic manner and his face looked anything but pleasant. With a lordly wave of the hand he issued a general invitation to the crowd to take "snthen." A few responded, but it was more than fear of the champion than that that made them desire to be sociable.

While he was drinking, Sullivan saw Capt. Cooke, of The Police News, seated at one of the tables. Then the trouble began. Capt. Cooke has in times past given his opinion of the champion's carousals in unmeasured terms, and Sully was drunk enough to resent what he considered an insult. By the time he had reached the table where Capt. Cooke sat his face was black with anger, and with clinched fists he proceeded to take the genial sporting editor to task for his truth-telling. In his excitement he shook his fist in Capt. Cooke's face, swearing like a trooper and calling him all sorts of vile names. James F. Ormand, who has more influence over Sullivan than any other man, entered the bar room and induced him to leave.

After resuming his carriage he remembered the grudge he owed the police board, and ordered the driver to go to police headquarters, vowing to clean out the whole force. He entered headquarters and demanded to see Chairman Whiting, but the clerk sternly thwarted the champion by stating that Whiting was absent. Finally, the big fellow was induced to go to his home in South End, where he is still keeping up his spree. Meantime all Boston is anxiously awaiting the outcome.

John L. Sullivan's Mother Dead.

BOSTON, Aug. 31.—Mrs. Catherine Sullivan, mother of John L. Sullivan, the pugilist, died last night after a long illness. She was 52 years old, a native of Ireland.

SOUTH AFRICA MILL.

Stakes the largest in the Annals of the Prize Ring.

NEW YORK, Aug. 31.—Mr. Richard K. Fox has received a London cable which says: The prize fight between Jack Couper, the champion of South Africa, and Woolf Bendoff, of England, for £4,500, was fought at Port Elizabeth, South Africa, on July 30. The stakes were the largest ever fought for in the annals of the prize ring.

Twenty-seven rounds were fought in one hour and twenty-seven minutes, when Couper knocked Bendoff senseless, and Couper was declared winner. Bendoff weighed 175 pounds, Couper 155 pounds. Barmatta, the diamond king, backed Bendoff and bet £1,000 outside the stakes on his man. Over 2,300 spectators were present, and 500 were in the inclosure, all of whom paid £5 each for a ticket. The gate money was divided, and Couper received £3,000.

ATTEMPTED TRAIN WRECKING.

The Obstruction Discovered Just in Time to Prevent a Serious Accident.

COLUMBUS, O., Aug. 31.—An attempt was made Friday morning to wreck the Pittsburgh and Cincinnati express, on the Midland railroad, thirteen miles west of this city. At the point the train curves around a deep ditch, and two railroad ties and a heavy rock were so arranged as to throw the train into the ditch. The train was filled with passengers and moving at a high rate of speed.

The engineer did not see the obstruction until nearly on to it, and immediately applied the air-brake to the train and driver brakes to the engine, but the momentum of the train was so great that the engine, which was derailed, ran along the ties for a distance of a sixth of a mile. The rest of the train was not affected in the least and few of the passengers were aware of the accident. No clew to the perpetrators.

AT DEER PARK.

The President Disposes of Four Pardon Cases—An Appointment.

BALTIMORE, Md., Aug. 31.—The Sun's Deer Park special says: The president has appointed Frank P. Clark collector at El Paso, Tex. He disposed of four pardon cases. D. H. Stansell, of South Carolina, convicted of violating the revenue laws, was pardoned. Garrett Cittler, convicted of outrageous assault in the District of Columbia, and sentenced to thirty years in the penitentiary, was pardoned. He has served nine years and is dying of consumption.

John Caton, convicted of larceny in the District of Columbia, and sentenced to five years imprisonment, had his sentence commuted to two years. Christopher Johnson, of Florida, convicted of outrageous assault and sentenced to three years imprisonment, had his sentence commuted to one year.

To-night Senator Davis will give a dinner to President and Mrs. Harrison.

The president has expressed himself as determined to remain away from Washington during the month of September, if possible.

A Prominent Attorney Assassinated.

PAINESVILLE, O., Aug. 31.—Stanley C. Jones shot and killed A. A. Amidon, a prominent attorney here, last night. Amidon was Mrs. Jones' attorney in a suit for divorce against her husband, and this is the only known motive for the crime.
